

***Recubrimientos pintables fabricados de fibra  
de vidrio para muros***

## Descripción

Recubrimiento fabricado de fibra de vidrio para muros, con propiedades antibacteriales, ideales para la protección y decoración de muros y plafones interiores. El producto es perfecto para espacios nuevos, gracias a su alta propiedad mecánica, evita que aparezcan fisuras y/o grietas y en consecuencia prolonga la vida útil de la superficie. También es una solución eficaz para remodelaciones y así mismo crear una atmosfera cálida, moderna y con una decoración única.

Disimula fisuras

Pintable y repintable

Decorativo

Retardante al fuego A1/A2

Fácil mantenimiento

Alta resistencia a golpes

Higiene garantizada

Resistencia a la  
humedad y moho

Certificación de edificios  
sostenibles

The image features a dark blue, textured surface on the right side, which appears to be a wall or a large panel. On the left side, there is a blurred, light-colored wooden structure, possibly a piece of furniture or a door frame, with a warm, natural wood tone. The overall composition is split vertically, with the textured surface occupying the right half and the wooden structure on the left.

LÍNEA CLÁSICA  
REPINTABLE HASTA 5 VECES  
SIN PERDER LA TEXTURA.
