

HOLBOX

For the rational construction of space, a home scene that leans towards sensibility not only presents stability, relaxation and peace, but also inclusiveness. Like a tree hole, it embraces all joys and sorrows, cherishing the fragmented happiness in life and soothing the sensitivity and vulnerability that are hard to show. The reshaped interactive space allows for the sharing of characters' feelings at any time.

A misty mountain landscape with dense evergreen forests and rolling hills. The scene is captured in a soft, ethereal light, with mist or low clouds filling the valleys and clinging to the slopes. The colors are muted greens and blues, creating a serene and natural atmosphere. The text is overlaid on the center of the image.
